Day 1

Tomorrow
9:00-16:00

Ávila

1 **Parking / Start of the route**

El Soto is the great green lung of the city. In this initial area, a great mix of tree species stands out, with the native species that we will find throughout the entire space combining.

0.33 Horas

Ávila

2 **Ash Grove**

This ash grove has a low density of trees, allowing the presence of various species on the edges and clearings of the stand such as hawthorns, blackthorns or brambles.

0.50 Horas

Ávila

3 **Riverside Forest**

The Adaja River is the backbone of this space, and around it one of the most biodiverse ecosystems found in the city and its surroundings thrives.

0.50 Horas

Ávila

4 **Ecotone (confluence of ecosystems)**

The Adaja River is the backbone of this space, and around it one of the most biodiverse ecosystems found in the city and its surroundings thrives.

0.33 Horas

Ávila

5 **Path to El Fresno**

In this area near the river, green, fresh, and sometimes flooded environments thrive, offering a perfect habitat for birds in search of food
