Day 1

Tomorrow
9:00-16:00

Ávila

1 **Rural Environment and Livestock Farms**

This rural environment has been shaped over the centuries by human activity, yet it preserves features characteristic of Mediterranean ecosystems.

0.33 Horas

Ávila

2 **Agropastoral Mosaic**

This ecosystem arises as a result of the modification of the environment after years of livestock exploitation and is characterized by the interspersed presence of open pasture areas with other plots of old crops.

1.00 Horas

Ávila

3 **Las Arroyadas Pond**

This area stands out as the only one with accumulated water along almost the entire route, making it a key refuge for wildlife, especially in summer.

0.33 Horas

Ávila

4 **Rocky Outcrops**

We are surrounded by rocky outcrops shaped by the action of wind, rain, ice, and temperature changes over millennia, creating peculiar structures that stand out in the landscape.

1.00 Horas

Ávila

5 **Berrocal Landscape and Granite Boulders**

At the end of the route, a berrocal stands out: a set of large rounded rocks shaped by erosion. A singular landscape, unchanged for centuries, ideal for observation and imagination.
